Notes:

All the Bidders are requested to refer "Pricing Preamble and notes below" and works items of this Bills of Quantities shall be priced to fulfill the requirements there-in. Also see that no page or items are missing prior to pricing of this bill of quantities.

- A list of typical general items are given below. However, the Bidder is requested to price only those items that may affect this Contract.
- The Bidder is advised to visit the site of the proposed work, as it is his responsibility to ascertain the conditions governing access to the site, and external working space, storage area etc.
- If no price has been stated against any item hereunder, the Contractor shall not be entitled to claim any money for such items even though he is obliged to execute the work or provide services described therein. Preliminary items priced by the Tenderer are deemed to include the cost of unpriced items.
- The Bidder is advised to refer to the General Notes, Pricing Preambles, Drawings, Specifications, Conditions of Contract, Particular Conditions of Contract and other relevant documents prior to pricing of the following items.
- The bidder is required to visit the site of the proposed work, as it is his responsibility to ascertain the conditions governing access to the site, the external working space, storage area and any other information he may find necessary before he can tender for the work.
- Cost and expenses in connection with any other preliminary item which is not listed below, but is necessary for the due completion of works, is deemed to be included in the tender rates.
- The contractor shall be responsible for any loss or damage to the works, existing structures, adjoining structures and unfixed materials.
- The contractor shall try to locate the new units in a way to avoid cutting trees. If it is really needed to cut down any number of trees, allow for planting same number of trees
- The contractor shall be responsible for providing necessary lighting, watchmen, and other suitable security measures during construction until handing over.
- The contractor will be required throughout the contract to maintain and keep from obstructing the existing way.
- The Contractor shall be responsible for the provision of all materials, scaffolding, tools, plant, transport and workmen required for the works except in so far as may be stated otherwise herein and he shall allow for the provision of the foregoing except for such items specifically and only required for the use of nominated Sub-Contractors as described herein.
- All such plant, tools and scaffolding shall comply with all regulations whether general or local in force throughout the period of the contract and shall be altered or adapted during the contract, as may be necessary to comply with any amendments in or additions to such regulations.
- Contractor shall provide helmets, gloves, safety masks, dusk masks, eye goggles, boots etc. for the workmen.
- Contractor shall provide safety boards, signs and safety ribbons

- Contractor shall take special care for safety of the patients, staff and public during transportation of materials and implementation of the contract

Plant, Material & Work Practices

- No work in any trade shall be carried out in such a manner as to cause any damage and nuisance to adjacent owners or the public.
- The Engineer has the discretion as to when he deems it necessary for the Contractor to take precautions, maintain or repair any such plant and equipment or order their removal from the site.
- Contractor shall provide specimens, samples and sample panels of material and testing of materials as appropriate and as directed by Engineer.
- The contractor shall comply with statutory requirements of NEMA approved EIA report for this project

Site Facilities

- The contractor shall provide adequate space to serve as a temporary site office and fit it with the required facilities for his own site management staff as well as the Engineer/Engineer's Representative.
- The contractor shall provide adequate space to serve as a temporary site stores or space for storage of plant and materials for the work herein.
- The contractor shall provide toilet facilities for his workers and the Engineers within the site as directed. The contractor shall maintain the same in proper sanitary conditions as per the World Health Organization (WHO) standards, throughout the contract period. The contractor shall demolish the toilet if required to do so upon completion of the project
- Allow for necessary protective fencing/site hoarding, lighting, watchmen and other precautions and maintain for entire construction period.

Sites Operations

- Allow for **setting out of works** in accordance with drawings; liaise with client to establish exact boundaries and other written information given by the Engineer and obtain written approval from the relevant government authorities for setting out, street and building lines before commencements of construction; Checking of any setting out or of any line or level by the Engineer shall not in any way relieve the Contractor of his responsibility for the accuracy thereof.
- Allow for **supplying temporary electricity** for the Works and facilities of the contractor including connection, distribution system for the work, internal arrangements and all payment to the authorities for connections. It is the responsibility of the Contractor to ensure steady and uninterrupted power supply to Works. The Contractor shall not be entitled to claim and the Employer shall not pay cost incurred by the Contractor for using electric power generators or for using other alternative power supply method in case there happened to be disruptions to normal power supply due to any reason.
- Allow for **provision of water** for the works and potable water, including payment of all charges and other expenses in connection therewith, supply from water mains or any other alternative source of water supply, storage and distribution. It is the sole responsibility of the contractor to ensure steady, uninterrupted adequate supply of water required for main contract and nominated sub contract works.
- Allow for **maintaining daily records** in the manner required by the Engineer to indicate factual details of:
- Allow for **clearing up sites on completion**, including removal of rubbish and debris, cleaning and leaving all in good order when handing over.

- Allow for preparing and submitting to Engineer in sufficient number of copies the **Programme of work** referred to in the Conditions of Contract and shall be in both soft and hardcopy-A1 paper size. The Programme shall be updated or revised as required by the Engineer.
- The Contractor shall be responsible for maintaining the sites in clean and orderly fashion at all times and during the entire contract period. Materials, casings etc. shall be kept neatly stacked on the site with all access-ways kept clear. All dust, debris and rubbish etc., arising out of his own works shall be continually cleared and removed from the site. The Engineer's Representative shall certify a percentage of the monthly rate or shall completely suspend the monthly amount if the contractor's maintenance is found to be unacceptable. The burning of rubbish and debris on site will not be allowed under any circumstance. The Contractor is to make certain that his workmen do not burn anything on site.
- Allow for providing all necessary safety measures to workmen (provision for proper usage of Personal protective equipment (PPE)). The bidder should submit his comprehensive safety plan with description and number in each safety device and other safety equipment proposed. The Engineer's Representative has the right to pay a percentage of the monthly component to suit the percentage accomplishment of this safety plan.
- Allow for providing all testing of materials as may be called for by the Project Engineer
- Demolition of existing buildings on site and dispose debris at designated dumping site
- Clearing the existing charcoal on site and dispose as directed

Time-Related Charges

- Allow for reimbursement of all payments to the authorities for **consumption of Electricity** or the fuel cost for the Generators
- Allow for maintaining **water supply facilities** including payment of bills and other monthly charges and any other fees and payments in connection with the satisfactory supply of water.
- Allow for submission of three (03) copies of **progress reports** each with five (05) photographs monthly covering all major activities taken place during that period and adequate no of photograph to monitor the progress.
- Submission of one copy of weekly and monthly **break-up programmes** to the Engineer's Representative for progress monitoring purposes.
- Allow provision for **General Health, Safety and Environmental Management system** for execution of works under the contract. The bidder should submit his comprehensive Safety and Environmental Management system.

BOQ SUMMARY

	CONSTRUCTION	AMOUNT in USD
1.	CONSTRUCTION OF FODER STORAGE (8m X 12m) AT DAMAY VILLAGE OF WAJID DISTRICT	
2	CONSTRUCTION OF FODER STORAGE (8m X 12m) AT TARMUSH VILLAGE OF WAJID OF DISTRICTS	
3	CONSTRUCTION OF FOOD STORAGE (8m X 12m) AT EL-GUURA VILLAGE OF WAJID DISTRICT.	
TOTAL AMOUNT OF THE TENDER		

1. CONSTRUCTION OF FODER STORAGE (8MX12M) DAMAY VILLAGE OF WAJID DISTRICTS

BILL OF QUANTITIES

ITEM	DESCRIPTION	UNIT	QTY	Rate	TOTAL/USD
A	Substructure Work				
1	Site Clearance: Prepare site by stripping top 200 mm of soil to remove all debris including sand (if any) from site and carting away spoil	M2	168.00		
2	Foundation Excavation: Excavate for Strip Foundation (800mm wide by 0.6m deep) and remove surplus excavated material from site	M3	19.30		
3	Mass concrete in 100 mm thick blinding layer (1:4:8 mix) under the foundation wall.	M3	1.61		

4	Rubble stone foundation wall in cement & sand mortar 1:4 (0.7 deep m x 0.4m wide) 20cm above ground level and 500 mm below GL.	M3	11.26		
5	Column Footings: Vibrated Reinforced Concrete, Class 25, 200mm thick footing. Use 4D12 for reinforcement bars (footing size is 800mm by 800mm)	M3	1.28		
6	R.C ground beam Class of 400x200mm size, with 4N0. D10 re-bars & D6 links @ 200 mm c/c.	M3	3.22		
7	Hard-core: 300 mm thick approved hard-core filling spread, well rammed and compacted in 150mm layers to receive concrete surface bed	M3	28.80		
8	5cm thick murram blinding well compacted and levelled to receive the floor slab	M3	4.80		
9	Supply and place 1000g Damp proof membrane for the entire floor area	M2	98.40		
Sub-Total					
B	Superstructure works including conc. floor slab				
1	Floor Slab: Reinforced Concrete, Class 25, 125mm thick floor slab with surface steel trowelled smooth.	M3	12.3		
2	20cm thick Hollow blocks wall with 2.3m height, laid in cement & sand mortar 1:4 mix.	M2	92.46		
3	Ring Beam: Vibrated Reinforced Concrete, Class 25, 200mm thick Ring Beam. Use 4D10 horizontal reinforcement bars and D8 @ 200mm spacing for sturrups (beam size is 200mm by 200mm)	M3	1.608		
4	Columns: Vibrated Reinforced Concrete, Class 25, 200mm thick Columns. Use 4D10 horizontal reinforcement bars and D8 @ 200mm spacing for rings (column size is 300mm by 200mm)	M3	2.4		
5	Construct reinforced concrete access ramp of 2.5m Wide and 2m Length at the entrance gate	Ls	1		
Sub-Total					
C	Roof works				

1	Roofing: Supply and Install 30 Gauge galvanized corrugated iron sheets fixed to sawn celcured cypress timber truss constructed of 100mm x 50mm Rafters, 100mm x 50mm wall plate, and 50mm Purlins.	M2	127.92		
2	Supply and fix 200mm x 20mm fascia board, including two coats enamel paint.	M	41.00		
D	Plastering and Other Finishing				
1	Wall Finish: Cement and sand mortar (1:3) Plastering in 20 mm Thick mortar rendering with steel float finish to masonry and concrete surfaces	M2	201.00		
2	Painting: Prepare and apply three coats of Sadolin Weather Guard, or Crown Permacote Ultra Paint to Plastering surfaces	M2	201.00		
Sub--Total					
E	Doors and Windows				
1	Supply and fix Steel door (2.0m x 2.5 m) double leaf complete with frame, hinges & locks and to include two coats of gloss paint.	No.	1.00		
2	supply and install of 1000mm high Metal grill mesh (abusakiin) with metal frame to be the at the opening between the wall and the roof	M	39.00		
Sub-Total					
F	Visibility				
1	Branding Services: Brand Using Sadolin Weather Guard, or Crown Permacote Ultra Paint, Branding to be inscribed into the plaster as will be directed by the supervising engineer	Job	1		
Grand-Total					

2. CONSTRUCTION OF FODER STORAGE (8MX12M) TARMUSH VILLAGE OF WAJID DISTRICTS

Tenderer's Declaration

Tender Reference:	SHAQ-B3-05-2025
--------------------------	------------------------

In response to your letter of invitation to tender for the above contract, we, the undersigned, hereby declare that:

- 1 We have examined and accept in full the content of the dossier for invitation to tender. We hereby accept its provisions in their entirety, without reservation or restriction.
- 2 We offer to deliver, in accordance with the terms of the tender dossier and the conditions and time limits laid down, without reserve or restriction:
- 3 This tender is valid for a period of 90 days from the final date for submission of tenders.
- 4 If our tender is accepted, we undertake to provide a performance guarantee as required by the instructions to tenderers. (If required)
- 5 We will inform Shaqodoon immediately if there is any change in the above circumstances at any stage during the implementation of the contract. We also fully recognise and accept that any inaccurate or incomplete information deliberately provided in this application may result in our exclusion from this and other contracts of the contracting authority.
- 6 We note that Shaqodoon is not bound to proceed with this invitation to tender and that it reserves the right to award only part of the contract.
- 7 We agree to adhere to all of the terms and conditions of the contracting authority as provided in the tender dossier.
- 8 We confirm that we are not engaged in any corrupt, fraudulent, collusive or coercive practices and acknowledge that if evidence contrary to this exists, Shaqodoon reserves the right to terminate the contract with immediate effect.
- 9 The Code of Conduct to which Shaqodoon expects all of its suppliers to respect is as per the points listed below and we confirm that we adhere to this code.
 - Employment is freely chosen
 - The rights of staff to freedom of association and to collective bargaining are respected
 - Working conditions are safe and hygienic
 - No exploitation of children is tolerated
 - Wages paid are adequate to cover the cost of a reasonable living
 - Working hours are not excessive
 - No discrimination is practiced
 - Regular employment is provided
 - No harsh or inhumane treatment of staff is tolerated

Environmental Standards

Contractors should as a minimum, comply with all statutory and other legal requirements relating to environmental impacts of their business. Areas which should be considered are:

- Waste Management
- Packaging and Paper
- Conservation
- Energy Use
- Sustainability

Yours Faithfully,
